

CALIFORNIA MATERNAL
QUALITY CARE COLLABORATIVE

Hello,

This is a follow-up notice about the recent invitation you received to join CMQCC's first quality improvement initiative on OB Hemorrhage. We have received feedback that the fee for participating is high for hospitals with large numbers of annual deliveries. Based on this feedback, we have discounted the fees as follows:

The general fee is \$2000 per 500 annual births, with a **MAXIMUM fee of \$5000**

Hospital systems, such as Catholic HealthCare West, Kaiser Permanente, Sutter Health, Tenet with multiple hospital participants, will pay \$5000 for one hospital, and \$2500 for each additional hospital, regardless of the number of annual births

We will accept quarterly payments.

For facilities with less than 100 annual births, the possibility of paying less than \$2000 is being considered and will be determined by the overall number of participants in the collaborative. If you are interested, please contact us to discuss your situation.

Registration will be limited and several hospitals have already committed to participate. We recommend that if you are interested in participating in this collaborative that you contact us as soon as possible.

Please send us an email: cape@cmqcc.org or call Valerie Cape at 650-725-6108.

Thank you.
