ADVOCACY ACTION TIPS

‣ Your concerns and feelings are valid, be persistent in getting the answers or care you need.

‣ If you have a medical emergency, please dial 911 or go to the nearest emergency room.

‣ Ask to speak to the charge nurse or patient relations if you are not being heard

‣ If you are not getting the response you need, you can go to triage or the emergency room. You do not need permission from anyone to do so.

‣ You can also go to a different hospital or urgent care facility if you are not receiving the care you need.

‣ Consider having another person to accompany you to help advocate for you (support person, family member, doula, etc.)

‣ Bring a list of your concerns you would like to be addressed.

‣ Start your concern with the effect that it is having such as the following: “I am so tired I am unable to get out of bed”; “I am having so much pain I cannot sleep”; etc.
