CMQCC SUCCESSES:
As part of our community of 200+ member hospitals – accounting for 95% of California’s delivery volume – you are a key partner in providing California’s moms, babies and their families the best start to life. Since CMQCC’s inception, California has seen maternal mortality decline by 55 percent between 2006 to 2013, while the national maternal mortality rate continued to rise. More recently, CMQCC has successfully reduced the NTSV Cesarean Rate with California hospitals through our successful QI collaboratives resulting in a statewide average of 22.7% at the end of 2019, while the national average remains significantly higher at 25.9%. We are committed to developing real-time solutions to assist in the implementation of the latest clinical guidance, data tools, and State and Joint Commission reporting requirements as the state of maternity care in California evolves.

MEMBERSHIP BENEFITS:

- **Learn from CMQCC’s on-demand clinical coaches and data managers as well as your peer hospitals**, representing 95% of California’s L&D units.
- **Access rapid-cycle data analytics** to measure your progress alongside statewide, regional and system benchmarks and analyze your data to identify unique quality improvement opportunities in our Maternal Data Center (MDC).
- **Perform drill down analysis to patient-level data by provider and race-ethnicity** and measure how your hospital is doing on more than 90 performance and statistical metrics in the MDC.
- **Fulfill performance reporting requirements** with the MDC’s convenient reporting features for the Leapfrog Group, Blue Distinction Provider recognition program, Cal Hospital Compare (CMQCC reports several maternity metrics for you!), California Children’s Services, CMS Inpatient Quality Reporting Program, and the Joint Commission’s DDSP and Perinatal Standards.
- **Improve outcomes** with access to CMQCC’s evidence-based, multi-disciplinary toolkits and implementation guides, including our newest toolkits: the Mother & Baby Substance Exposure Toolkit and Improving Diagnosis and Treatment of Maternal Sepsis. An update to the Preclampsia and OB Hemorrhage Toolkits are currently underway!
- **Improve your clinical skills and learn online** with HUDLS, our online education platform for labor support, and SHARE, our online discussion platform where member hospitals share QI policies, best practices and ideas.
- **Create sustainable change** by participating in one of our highly successful QI Collaboratives, including our newest collaborative, the QI Academy. QI Academy is a year-long educational initiative focused on the application of evidence-based quality improvement techniques to a hospital-specific project, while mentoring participants and enhancing the perinatal team’s QI skills.
- **Stay up-to-date** with the latest in maternity quality improvement via our community and members-only educational webinars focused on data, clinical recommendations, and most recently a series of webinars and resources on guidance around COVID-19 as our understanding of the pandemic evolves.
- **Get rewarded with financial incentives and recognition** for CMQCC membership via our partnership with performance reporting initiatives and health plans.
2021 Membership

Any California hospital with an operating Labor and Delivery Unit or Obstetrics Unit is invited to join CMQCC. For more information about joining and to schedule a personalized webinar with our team, contact datacenter@cmqcc.org.

Our goal is to ensure participation by all interested hospitals. We strive for fees that are fair, affordable and consistent with the value received. Discounts are available as noted below.

1-2 Site Hospitals

If your hospital is a single, stand-alone facility or in a network of 2 hospitals, your fees are:

| Annual Fee Per Site | $10,800/ year |

Discounts for Multi-Hospital Systems

If your hospital is part of a system with >2 hospitals, pricing is contingent on the number of system hospitals that continue CMQCC participation in 2021.
