Attention physicians, nurses, midwives, community birth workers and other maternal care providers! You’re invited to learn about the promotion of LDA to prevent preeclampsia and subsequent preterm birth for California’s women and birthing people. During this webinar, our expert panel will present best practices for respectful, compassionate discussion about risk factors for the development of preeclampsia with patients, tips for essential patient education, and tools available in the Maternal Data Center (MDC) for tracking patient LDA usage. Learn how you can join in California’s #LetsDoAspirin campaign, funded by the March of Dimes. Webinar objectives can be found on the registration page.
