PC-06: Unexpected Complications in Term Newborns

**Numerator:** Newborns with severe complications and moderate complications.

**Denominator:** Liveborn single term newborns 2500 gm or over in birth weight.

---

**Stratification Table:**

<table>
<thead>
<tr>
<th>Measure ID</th>
<th>Measure Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PC-06.0</td>
<td>Overall</td>
</tr>
<tr>
<td>PC-06.1</td>
<td>Severe Complications</td>
</tr>
<tr>
<td>PC-06.2</td>
<td>Moderate Complications</td>
</tr>
</tbody>
</table>

**Measure Category Assignments:**

- **Assignment**
  - E: In Numerator Population
  - D: In Measure Population
  - B: Not In Measure Population
  - X: Case Will Be Rejected

---

**Measure Algorithm:**

1. **Start**
2. Run cases that are included in the PC-Newborn UNC Initial Patient Population and pass the edits defined in the Transmission Data Processing Flow: Clinical through this measure.
3. Initialize the Measure Category Assignment for all strata measures PC-06.0, PC-06.1, PC-06.2 = Null.
4. **Congenital Malformations or Other Fetal Conditions or Maternal Drug Use**
   - At least one on Table 11.30, 11.31, 11.32 → PC-08 = B
5. **ICD-10-CM Principal or Other Diagnosis Codes**
   - None on 11.30, 11.31, 11.32
   - PC-08 X
6. **Discharge Disposition**
   - Missing
   - 1, 2, 7, 8
   - Expired or Transferred
7. **ICD-10-CM Principal or Other Diagnosis Codes**
   - At least one on Table 11.36, 11.37, 11.38, 11.39, 11.40, 11.41
8. **ICD-10-PCS Principal or Other Procedure Codes**
   - At least one on Table 11.42, 11.43, 11.44
9. **Length of Stay (in days) = Discharge Date – Admission Date**
10. **ICD-10-CM Principal or Other Diagnosis Codes**
    - **Sepsis** At least one on Table 11.45
    - Length of Stay
      - > 4 days → PC-08 H
      - ≤ 4 days
11. **End**
Set the Measure Category Assignment for the strata measure:
PC-06.0 = 'E' Overall Rate
PC-06.1 = 'D' Severe Rate
PC-06.2 = 'C' Moderate Rate
